Dear Sir:

In response to the election requirement (dated August 17, 2005), applicant hereby elects, with traverse, the claims associated with Figures 6-15, namely, claims 5-28, for further prosecution on the merits.

As noted in MPEP 803, an application may be properly restricted to one of two or more claimed inventions only if they are able to support separate patents and they are either independent (MPEP §806.04-§806.04(i)) or distinct (MPEP §806.05-§806.05(i)). If the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions. In the present case, Group II is elected with traverse since it is believed that search and examination of the entire application can be made without serious burden.

Applicant's election is made without prejudice. As noted by the Examiner, upon the allowance of a generic claim, Applicant will be entitled to consideration of claims to not more than two species in addition to the elected species, provided that all claims to each additional species are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.146.

Applicant believes no fee is due with this response. However, if a fee is due, please charge our Deposit Account No. 50-3145, under Order No. 209593-81554 from which the undersigned is authorized to draw.

Dated: 8/23/05

Respectfully submitted,

By
